Bonnevillains Patch

Bonnevillains Hoodie Black zip-up M-XL 2X-3X

Bonnevillains Speed & Custom is located in Salt Lake City near the famed Bonneville salt flats. Our love for speed and period correct '50s, '60s and pre-war hotrods, choppers and race cars put us where we are today. Disgusted by the high dollar rods being built on TV and the retro rods being passed off as low budget and home-built, we set out to build the most outrageously fast and traditionally styled hot rods and bikes out there. There are no heaters, no a/c, no wipers and barely any brakes, leaving only room for raw horsepower, acceleration and straight-line top speed.

The approach to our clothing is the same. Looking for clothing that honors hot-rodding's true past and finding little to nothing; we started designing and producing our own clothing. Geared toward custom car culture, all shirts are made of durable fabric consistent with the need of a grease monkey, absorbs fuel, oil and grease keeping it close to the skin, where it belongs.
